STAMM & TGIF NEWS

We recently moved the venue of the TGIF from the Braueri Baar to the Pickwick pub in Zug in an attempt to revive the flagging fortunes of this monthly get together. 4 of the six IMCZ Board Members attended the last thrash at the Braueri, and 3 of the six attended the first thrash at the Pickwick. Seemingly no one else is interested as we were on our own for both events! (although one member did actually turn up at the Braueri when everyone else was at the Pickwick..) You may recall that at the AGM our President stated that we would attempt to run events that YOU are interested in, SO as there is no interest in a TGIF, it is now defunct, it does not exist and it DOES NOT take place at the Braueri Baar, or for that matter at the Pickwick pub.

We are pleased however, to report that the Stamm continues to flourish and meets every Thursday from around 17:30 in the Casino. It was worrying to hear that at a recent Stamm, some members did not know who the guys in the next room were. The IMCZ Board were having one of their regular meetings in the Rundzimmer at the time...

BIGGER FELLA...

Just in case you don't feel appreciated.....

After **FRED ASTAIRE**'s first screen test, a 1933 memo said: "Can't act. Slightly bald. Can dance a little"

ENRICO CARUSO's teacher said he ".....had no voice at all and could not sing"

And **BEETHOVEN**'s teacher said that he ".....handles the violin badly and is hopeless as a composer"

WALT DISNEY was fired for ".....lacking ideas"

And when work is really getting you down, you should remember that...

1. A *carelessly* planned project will take 3 times longer to complete than expected whilst a *carefully* planned project takes only twice as long.

2. No matter how well you perform your job, a superior will seek to modify the results... and finally...

3. Two wrongs are only the beginning.....

SELEGER MOOR VISIT

Over 30 members and their guests spent a very pleasant evening walking around the Seleger Moor gardens in Rifferswil on 27th May. Seleger Moor was founded by Robert Seleger in 1953 and is not only the best and most famous specialist Rhododendron garden in Switzerland, but renowned throughout Europe.

We were fortunate to have as our guides one of our own IMCZ members Roland Dunner who works at the gardens, and his colleague, and the Head Gardener, Reto Kurz. After a courtesy apero, we enjoyed a barbeque and an introductory talk on the gardens from Roland. We then split up into two groups headed by Roland and Reto for a very informative guided tour of the gardens.

The threatened rain managed to stay away and a very enjoyable time was had by all as we took in the stunningly colourful views of the azalea and rhododendron blooms in their natural surroundings.

I must confess to not having realised that gardens of the standard of Seleger Moor are on our doorstep, just across the 'border' into Kanton Zürich. I can heartily recommend a visit there, especially to see the rhododendrons. However, you need to be quick, the blooms don't last too long!

Entrance to Seleger Moor costs just 5 SFR and the gardens can be found by following the signs through Rifferswil from Metmenstetten, or alternatively, from Hausen am Albis.

Advance Notice - Charity Fundraising 1998

INTERNET NEWS

If you have not already had a look at the Zug Tourist Board web site, check out all you ever wanted to know about Zug on <http://www.zug.ch>

For a wider view of What's on and Where To Go, check out the Central Switzerland web site on <http://www.centrawitzerland.ch> and the touristic information for other Zentral Schweiz towns and cities, plus Snow Reports, booking hotels, etc. etc. on <http://www.centrawitzerland.ch/links.htm>

For weather reports, there are two pretty good ones at <http://sfdrs.ch/sendungen/meteo/karten/> and <http://cnn.com/weather/>. From my experience to date, the latter site is the more accurate of the two and is updated frequently throughout the day.

On the travel front, the Arrivals and Departures information for flights out of Zurich Kloten - not just Swissair - is pretty good from <http://swissair.com/ADISStart.ctl> and you can check SBB railway timetables and even book your tickets in German, French, Italian, Spanish and English on <http://www.sbb.ch>

With the upcoming Football World Cup in France, you'd better check out <http://www.fifa.com> for all the latest news. And of course, all the close-season news from our very own Ice Hockey Meisters, Eissportverein Zug on <http://www.evz.ch>

There are lots and lots of interesting web sites out there and for those of you who use the Internet you will probably agree that there is nothing more frustrating than trying to guess the name of a site! To this end, why don't you send in those awkwardly named site addresses which may be of interest to other IMCZ members and we'll publish them. Send to DavidHarris@bluewin.ch or Newone2@ibm.net

By the way, we're investigating the feasibility of having our own IMCZ web site. I know a lot of you have access to the Internet, albeit maybe only from work so we would appreciate your comments on the subject. Fancy reading this newsletter on-line? Looking up and booking Club Events? My goodness, we could even have colour pictures!

Talking of the Year 2000 Problem, I hope you are doing your bit. Next time you make an electrical or electronic purchase, ask the assistant if your purchase is Year 2000 enabled. If the answer is not positive, DO NOT BUY IT. The insurance companies seem to be making a stand in that they won't indemnify manufacturers if the equipment ceases to work properly after 2000. That in turn means the shops will not give us our money back when the item stops working on January 1st 2000... :-)

Any views or ideas expressed in the IMCZ NEWS are those of the contributor and are not necessarily those of the Club.
