TALKS ABOUT THE AVALANCHE WARNING SYSTEM IN THE SWISS ALPS

When the first skiers arrive early morning at the bottom of the ski lifts ready for a days skiing, the regional avalanche bulletins have already been published and are available to all ski resorts. Over the past five years the Intercantonal Measurement & Information System (IMIS) has been built and installed by Markusub AG. Weather and snow data from more than 100 stations in the Swiss Alps is transferred every hour to the Snow & Avalanche Research Centre Davos (SLF). Over 200 organisations, including weather and avalanche forecasters, have access to the measured and modelled data. This essential and critical information enables local authorities to make decisions concerning our safety—if areas are to be evacuated or roads closed.

Markusub AG, based in Olten, are suppliers of measuring systems for air, earth and water.

To register for this highly interesting talk complete the enclosed form and return it to the address given by Friday 22 September 2000.

HON. SEC. AND THE TRIPLE BY-PASS BAND

The Club's Hon. Sec., John STUART, reports that the Triple By-Pass Band, of which he is a part, will be performing at the Pickwick on the evening of September 4 2000. John is guitarist and lead singer for the band.

For a lively evening out this is a must.

IMCZ TO GO BEHIND THE SCENES OF THE THE TRANSPORT MUSEUM (Verkehrshaus) LUZERN

Almost everyone will have visited the Transport museum at sometime, perhaps even several times, but now, on **Tuesday October 3**, members of the IMCZ—AND THEIR FAMILIES - will have the unique opportunity to see behind the scenes of the Transport Museum. To see what is normally hidden, to visit the cellars and archives. Our host for the evening will be Mr Henry WYDLER, the Museums Vice Director.

Because of Museum hours the **visit starts at 18.00 hrs at the entrance to the museum.** In all, time on the ground is approx. 90 minutes with optional dinner afterwards in the Museums 'Cockpit Restaurant'.

To register for this unique opportunity please complete the enclosed registration form and return it to the address given by **Wednesday 27 September 2000.**

As the IMCZ have to pay for this visit we will be asking a nominal Sfr 10 per adult head—to be collected on the night. Dinner and drinks will of course will be at your own cost.

Getting there

Anyone requiring directions to the Transport Museum should contact David HARRIS.

THE GOOD OL' DAYS

Supplied by Cliff SHRUM

A computer was something on TV
 From a science fiction show of note
 A window was something you hated to clean
 And a ram was the cousin of a goat

Meg was the name of my girlfriend
 And gig was a job for the nights
 Now they all mean different things
 And that really mega bytes

An application was for employment
 A program was a TV show
 A cursor was a profanity
 And a keyboard was a piano

Memory was something people lost with age
 A CD was a bank account
 And if you had a 3 in. floppy
 You hoped no one would find out

Compress was something you did to garbage
 Not something you did to a file
 And if you unzipped anything in public
 You'd be in jail for quite a while.

NEW IDEAS

We, the Board, are always seeking new and innovative ideas for Club events, particularly visits to local industry, and we welcome any and all suggestions from members regarding this. If you have any thoughts then please contact Bas VEENENDAAL or David HARRIS.
