VISIT TO SELEGER MOOR

On May 15, 19 people gathered at Seleger Moor for the traditional annual IMCZ visit. We were welcomed by their horticulturist, and IMCZ board member, Roland Dünner. A mini BBQ was available after which Roland led the party on a guided tour through the park. It was a perfect day for viewing with first class weather and the flowers themselves being at the peak of blossoming. Roland showed us many interesting and hidden corners of the park giving an excellent commentary and explanation of the various plants.

All participants, and the IMCZ board, wish to thank Roland not only for arranging this visit but also for his time and interest in sharing a very special knowledge.

IDEAS SOUGHT

Or, more accurately, member involvement. The Clubs official founding date was June 1979 which means that next year, 2003, is the Club's 25th year.

We would like to mark this milestone in someway, apart from adding '25th year' to various things, without splashing out vast sums of money. If you have any thoughts or ideas please contact David HARRIS.

WELL DONE ONE AND CONGRATULATIONS TO THE OTHER

In April IMCZ Club member Bruce Mathers resigned as President of The English Theatre Group and was replaced by another IMCZ Club member Hans Zöllner.

Many thanks Bruce for so many years of first class and entertaining productions

MISCELLANEOUS

I like long walks, especially when they are taken by people who annoy me.

Dont bother me. I'm living happily ever after.

ZIWC BF SWISSCOM ENTERPRISES SOLUTION

Guest speaker
 Hanspeter Quadri,
 CEO Swisscom Enterprise Solutions

Experiences and lessons learnt in 2000 prompted to Swisscom to -

- Improve focus on growing markets and service for customers.
- Bring company into alignment in preparation for a future partnership.
- Provide better transparency to shareholders and analysts.
- Foster accountability before synergy.

The decision was therefore made to establish six companies under the lead of Swisscom Holdings. The process for setting up was started in 2001 and will be completed by mid 2002.

Swisscom Enterprise Solutions was designed as the company to provide business customers, primarily within Switzerland, with advanced and innovative communication and IT solutions. To achieve this they had to re establish itself as a complete solution provider—rearrange it's current portfolio of services—and change employees mindset to becoming the preferred solution partner for it's customers.

Hanspeter Quadri will discuss the challenges and actions which were initiated and which are currently showing results.

- What are the critical success factors to win a demanding and dynamic solution market?
- What must be done to address an ongoing management change?
- The strategy developed and applied?
- An established process model linked to the strategy and its consequences.
- What has been set-up to foster a new 'Enterprise Solutions' culture and leadership?
