Tuesday October 29 2002
Meet 18.45 hrs MULTIFORSA reception

Founded in 1946, today MULTIFORSA employs 150 people and specialises in the production of food and feed additives.

A special process was developed for the production of cold pressed wheat germ oil. This product, rich in natural folic acid, better known as Vitamin B9, can be found in many food products making up our daily diet and MULTIFORSA is proud to be a world leader in this field.

Apart from visiting the process line we will also see the innovative way in which MULTIFORSA manages energy consumption my maximising energy use.

Due to space restrictions the numbers allowed on this visit are limited to a maximum of fifteen so admission will be on a first come first served basis.

The visit will take approximately one hour; afterwards there is the option of meeting in the Rössli, Steinhausen for dinner (at your own cost).

The life of Paul Sacher, the Swiss conductor and billionaire has been described as "fifty lives full of secrets". How was a man born into a family with no musical background able to shape the face of contemporary classical music worldwide for more than sixty years? How did the same man, who grew up in modest circumstances, ultimately become a billionaire and the driving force behind one of the world's most powerful pharmaceutical companies, Hoffmann-La Roche, for more than half a century?

In her presentation, Lesley Stephenson will provide us with fascinating insights into a century of business and music and reveal some of the difficulties of writing the biography of this very private man.

This event takes place on Wednesday 23 October 2002 at 19.15 hrs in the Zug Public Library. The cost per head Sft 15 including the
