## CRYPTOLOGY

*'FOR YOUR EYES ONLY'*

Visit to a special exhibition on  
CRYPTOLOGY in the  
Transport Museum Luzern

**Friday 14 MARCH 2003 16.00 HRS**

In 2002, Crypto AG, Steinhausen, celebrated its 50th birthday with a special exhibition in the Transport Museum, Luzern. Extensive documentation is shown covering the history of cryptology and the machines used, many of which have been produced by CRYPTO AG.

CRYPTO AG was founded by a Swede, Boris Hagelin. He developed an alternative to the German Enigma machine and offered this to the USA just before the second World War. A total of 14,000 machines were produced until the end of the war. After the war, CRYPTO AG established manufacturing facilities in Switzerland.

Basically CRYPTO only deals with governments leaving their fully owned sister company, INFOGUARD AG, to deal with industry and individuals.

INFOGUARD AG now kindly offers to lead the IMCZ through the highly interesting exhibition in the Luzern Transport Museum and give us an insight into the world of cryptology.

The visit is limited to 20 persons and reservation is on a first come first served basis so book NOW. Reservations, see enclosed, to the new Club secretary Joop HUBBELING by March 10.

Meet 15.45 Transport Museum reception. Visit will last approx two hours.

An invitation from the ZIWC to join them for a presentation by Markus Good and Gabriele Bauman of GOODINVEST AG, the title: -

**TODAYS STOCK  
MARKET & SMART  
INVESTING DECISIONS**  
Tuesday 11 March 2003, 20.00—22.00hrs  
Casino Zug

This will be a formal presentation covering the following topics with time for questions and answers.

**Historical Analysis of the Equity Market**

What can we learn from the past in order to see the big picture to be.

**The Market's Psychology**

Why is it important to focus on the psychology of other investors. How we can avoid making the same 'lemming' mistakes.

**Macro-Economy**

What if war or peace breaks out? What if people stop spending?, What if interest rate go down or up?

**The Significance of Sectors**

How differently do sectors behave? How can we protect our assets by choosing the right sector at the right time?

**Stock Picking**

How can we differentiate the good stocks from the bad? What are the reference points to look for when selecting stocks? What attitudes should we avoid when selecting stocks?

**Markus Good** (lic. oec. publ) has a business administration & economics degree with a professional background in equity research and institutional investor sales. After positions at UBS Warburg and Lehman Brothers, Markus built and managed the Swiss Pan-European equity research sales team for Deutsche Bank, which earned a number 1 industry rating. Markus founded GOODINVEST in July 2001 and provides independent financial services to institutional and private investors.

**Gabriele Baumann** (lic. rer. pol) is an economist and has been an equity fund manager and financial analyst for more than twenty years. She became famous as the first German speaking author of a European-Monetary-System study and her European fund was voted Nr. 1 in 1998 (best average performance over five years). Gabriele has been head of the European Equity Fund team at Julius Baer Asset Management before joining GOODINVEST AG.

To register call **Karen VAN WARMERDAM** on 041-750 08 89 or E-M: [Karen@datazug.ch](mailto:Karen@datazug.ch)  
The closing date is 5 March 2003.

There will be a charge of Sfr 10 for members or Sfr 15 for non-members.

**IMCZ TO  
VISIT TO REGA**  
Thursday April 3 19.00hrs  
MEET 18.45 hrs REGA  
Reception.

Switzerland, where mountains as high as 4630m cover 40% of the country, has a well established, private, professional air rescue and air ambulance organisation which serves almost 10,000 patients a year.

REGA use a mixed fleet of fully equipped helicopters and fixed wing aircraft for emergency medical services.

Trapped or injured mountaineers, road traffic victims, emergency hospital transfer patients and urgent donor organ transfer. REGA members taken ill abroad are flown home. The list doesn't stop there, during the summer months REGA also handles animal rescue operations

REGA'S headquarters, just north of the threshold of runway 28, overlooks all the facilities of Zürich Airport from the midfield terminal southwards.

REGA is an abbreviation made up of the first two letters of the German *Rettungflugwacht* (air rescue guard) and the French *garde aérienne* (air guard).

The story is far more than can be told here—join us for the visit for the full facts of this incredible and very necessary organisation.

Plans to meet and go by train didnt work out but full instructions on how to find REGA are given on the separate. If you are travelling by car please be aware that traffic conditions at that time of the evening can be heavy.

We are further advised that you do not take the usual airport turn off but the next signposted Kloten-Sud—SEE THE ENCLOSED MAP.

Make your reservation using the attached form to Joop HUBBELING as indicate, by the 10 March 2003.
