Project OSIRIS—Montessori Schools

A project has been started by Nr. Didier Sperling to found a Montessori School here in the Canton of Zug.

Montessori schools aim to emphasize social interaction and the education of the whole personality rather than the teaching of a specific body of knowledge. It promotes learning through all five senses, not just through listening, watching or reading.

Children in Montessori classes learn at their own, individual pace and according to their own choice of activities from hundreds of possibilities.

Learning is an exciting process of discovery, leading to concentration, motivation, self-discipline, and a love of learning. Montessori classes place children in three-year age groups (3-6, 6-9, 9-12, and so on), forming communities in which the older children spontaneously share their knowledge with the younger ones.
