## Having a bad day?

- The average cost of rehabilitating a seal after the Exxon Valdez oil spill in Alaska was \$80,000. At a special ceremony, two of the most expensively saved animals were released back into the wild amid cheers and applause from onlookers. A minute later, in full view, a killer whale ate them both.

- Iraqi terrorist, Khay Rahnajet, didn't pay enough postage on a letter bomb. It came back with "return to sender" stamped on it.

Forgetting it was the bomb he opened it and was blown to bits.

- A woman came home to find her husband in the kitchen, shaking frantically with what looked like a wire running from his waist towards the electric kettle. Intending to jolt him away from the deadly current she whacked him with a handy plank of wood by the back door, breaking his arm in two places.

Until that moment he had been happily listening to his Walkman.

...remember to have a good day instead of a bad one.
