Eichhof Brewery

Unfortunately, we had to postpone our visit to Eichhof Brewery due to many members saying that they would be on holiday at the time of the visit.

I would have thought that would be the perfect time to visit a brewery but, then again, that's just me.

So we have re-arranged the date and the visit will now take place on **Wednesday, May 30th.**

Those members who have already registered need do nothing else if they still intend to come along.

In the Pipeline

Since the last AGM the new board has been very busy trying to organize lots of interesting events for the members.

There will be the wine-tasting next month and that should be a great opportunity for all the members to get together on a Saturday morning for a couple of hours and taste some of Europe's best wines.

On May the 12th, the IMCZ will be actively participating in an event for between 150 and 250 Expats in Zug, organized by UBS and Zuger Tourismus. The IMCZ will be hosting a central information stand as well as running a raclette stand for event visitors. More details to follow, but mark your calendars!

In keeping with the alcohol theme we'll be visiting the Eichhof Brewery at the end of May. This is a postponed event but there has been quite a response so far... it should be a sell-out.

In June we'll have our annual BBQ. It's a great day out for the whole family. And don't forget to bring along all your friends. The more the merrier.

In July we'll be visiting the Pilatus Aircraft Company. A fascinating place to visit and I'm sure the turnout will be huge for this one. www.pilatus-aircraft.com

All these events can be discussed at the Stammtisch every Thursday evening. More and more people are attending the 'Stamm' and that is where a lot of the ideas are coming from. Once a conversation gets started it soon becomes grounds for a visit.

If there are any other great ideas out there please don't hesitate to let us know.

Next time you think you're having a bad day.....

Fire authorities in California found a corpse in a burned out section of forest while assessing the damage done by a forest fire. The deceased male was dressed in a full wet suit, complete with scuba tanks on his back, flippers and facemask. A post-mortem revealed that the person died not from burns, but from massive internal injuries.

Dental records provided a positive identification. Investigators then set about trying to determine how a fully clad diver ended up in the middle of a forest fire.

It was revealed that on the day of the fire, the person went for a diving trip off the coast some 20 miles from the forest. The firefighters, seeking to control the fire as quickly as possible, called in a fleet of helicopters with very large dip buckets. Water was dipped from the ocean and then flown to the forest fire and emptied.

You guessed it..... One minute our diver was doing a Jaques Costeau in the warm, peaceful Pacific Ocean and the next he was doing the breaststroke in a fire dip bucket 300 feet in the air that was now hanging from a helicopter heading towards a forest fire.

Apparently he extinguished exactly 5'10" of the fire.

Some days it just doesn't pay to get out of bed.
